BLOWN BY BURGLARS.

Crackmen Dynamite a Safe And Get A Wad of Money.

BANKBILLS BLOWN BEYOND REACH.

Citizens Fired Upon by the Robbers Who Made Good Their Escape. Morning Stonisher For the People of Roundhead.

Bellefontaine, O., Oct. 30.—At the village of Roundhead, 14 miles from here, robbers made an early morning visit Tuesday. The people were aroused by the noise of a terrific explosion.

Ross Osborn, the first citizen to get to the street, was fired at by one of the robbers and retreated. The robbers left soon, taking with them two horses, one belonging to Dr. Neville.

Investigation showed that the store of Mertz and May had been entered and the safe demolished by dynamite, about \$400 being secured and all books of the firm destroyed by the explosion, but \$600 notes were blown out of reach of the robbers.

The robbers left town firing their guns and went in the direction of Lima, and it is believed that Lima men are guilty of the deed, which for daring has never been surpassed in Roundhead or vicinity.

Intervention Not Needed.

Washington, Oct. 30.—There will be no need for intervention by the United States to avert trouble between Chile and Peru, as the officials of these governments express the fullest assurance of an amicable adjustment of their differences. At the same time the two governments have been at odds so long concerning the sovereignty over the provinces of Tacna and Arica that the possibility has been suggested of an appeal to the United States by one or both of them to bring about a pacific adjustment.

Headquarters For Thieves.

Chicago, Oct. 30.—The police have found one of the largest repositories for stolen goods ever unearthed in Chicago. Ten thieves, men and women, were arrested, and stolen property valued at thousands of dollars was recovered. Vina McNurney, an alleged shoplifter, is said to have maintained the resort. It is believed that the gang has associates in many other large cities, and that the building raided was the headquarters for thieves who are working systematically in all parts of the United States.

A Royal Wedding.

Vienna, Oct. 30.—The marriage of Archduchess Maria Raineria of Austria to Duke Robert of Wurtemberg was solemnized in the chapel of the Hofburg in the presence of Emperor Francis Joseph and the court. At the wedding banquet which followed in the Hofburg 150 guests were present. The emperor, in a toast to the newly wedded pair, expressed his lively satisfaction at the creation of a fresh bond between the houses of Hapsburg and Wurtemberg.

Overdue Steamer Arrives.

Seattle, Wash., Oct. 30.—The long overdue steamer Robert Dollar has arrived from Nome with 350 passengers and \$1,000,000 in gold dust. She was delayed by storms preventing her discharging and loading cargo and hindering her on the way down. She left Nome Oct. 14. All on board are well. The steamer Ohio arrived from Nome with 427 passengers and \$250,000 in gold dust. She sailed Oct. 21.

Band Leader Killed.

Canton, O., Oct. 30.—Joe Ess, leader of the Massillon military band, was killed near this city Tuesday morning. He was riding on the platform of a crowded train from the Alliance Republican meeting. He struck the truss of a bridge and was thrown under the train. He was 30 years old and married.

Japs Want to Vote.

Vancouver, B. C., Oct. 30.—Several prominent Japanese residents of this place who have been naturalized have announced their intention of voting at the coming Dominion elections. The collector of votes has refused to put their names on the voters' list and they have appealed to the courts.

St. Louis Flooded.

St. Louis, Oct. 30.—Sixty-eight hundredths of an inch of water fell in 55 minutes and flooded the low places in the city, the water filling the cellars and in some instances rising into the first floors of residences, churches and stores. Street railway travel was impeded for a time.

Coroner Hugh McCullough of Louisville indicted for alleged malfeasance in office. Also under indictment for killing George Owens.

ROOSEVELT'S CAMPAIGN.

Hostile Reception at Elmira.

Returned Tuesday at Corning.

Elmira, N. Y., Oct. 30.—Governor

Roosevelt's visit to Elmira was anything but pleasant. He was in a carriage with former Senator Fassett and at several points along the route was pelted with eggs and vegetables and greeted with the vilest epithets. He sat in dignified silence, while the police looked on impassively. The campaign club from Corning was also assaulted personally and a bitter fight ensued. In the place of meeting the governor had no interruptions. After it was over he said: "It was nasty conduct, the conduct of hoodlums." Six of the Corning men were badly injured. Otherwise the governor was accorded a great demonstration here, two large meetings being held. Among other things Mr. Roosevelt said: "I call your attention especially to the fact that in the state as in the nation we, unlike our opponents, are a party of performance and not mere promise. During the past six years we have put upon the statute books and have enforced better and wiser laws in the interest of the wageworker and for the proper regulation and control of great corporations than our opponents ever put on during the time they have had control in Albany. McKinley said if he were elected he would put the economic and financial policies of the government on such a plane as to insure prosperity. This has been done. The gold standard has been maintained; not only is our credit perfect, but from a borrower we have become a lender nation."

The Roosevelt party made an early start westward Tuesday. The stops of the day were numerous, the tour ending in Rochester at night. The first speech of the morning was scheduled for Corning at 8:25 o'clock. An incident of the morning was the passing of three presidential trains at Elmira. Candidate Woolley of the Prohibition party went by on one side of the Roosevelt train and Candidate Bryan went by on his train a few minutes later, no courtesies being exchanged owing to the extremely early hour, all the tourists occupying their berths at the time. The first stop of the day was at Corning. It was raining quite hard when the train got to the station, but still there was a crowd in waiting.

Republican Rally.

Alliance, O., Oct. 30.—One of the biggest political meetings ever held in the old McKinley district was held here. The meeting embraced the dedication of a mammoth foundry building of the Morgan Engineering company, one of the chief products of which is the disappearing gun carriage used in the coast defenses. A letter from President McKinley was read at the meeting, and it created great enthusiasm. The president congratulated the company on its enterprise, saying: "Such extensions of industry indicate widening markets and increasing prosperity, while they insure a larger demand for the labor of the workmen and additional comforts for their homes. American labor and capital working hand in hand are of mutual advantage and in friendly co-operation will secure industrial triumphs as yet unknown. I have no sympathy with those teachings which incite envy and hatred among our people and would divide them into hostile camps. Permit me to congratulate the meeting upon the encouragement which such an assemblage gives to the cause of sound money, protection and national honor."

Southern Editor Dead.

New Orleans, Oct. 30.—Major Henry J. Hearsey, editor of the Daily States, and one of the strongest newspaper writers in the south, is dead. He was born in West Feliciana parish, this state in 1840 and was privately educated. His journalistic career began early, as he was only 20 years of age when he established the Feliciana Constitutionalist. Invited to go to Woodville, Miss., an important political center at that time he became editor of the Democrat. While acting in this position he urged the secession of Mississippi. At the breaking out of the war he joined the Wilkinson Rifles, which subsequently became a part of the Sixteenth Mississippi regiment, and was honorably discharged as a major on the staff rising from a private. In 1870, he went to Shreveport and ultimately became the editor of the Times of that city. Since 1880, he had been editor of the Daily States of this city.

Yerkes Gives Up One Job.

Washington, Oct. 30.—John W. Yerkes, collector of internal revenue for the Eighth district of Kentucky has resigned to take effect Nov. 1. Mr. Yerkes is the Republican candidate for governor of Kentucky.

Signor Foll's Estate.

Tacoma, Wash., Oct. 30.—A dispute over the division of the estate of the late Signor Foll, the noted baritone of the Royal Italian opera company in London, has been taken into court. The estate is valued at \$200,000. Foll's sister, Mrs. Bessie Walker, of Tacoma, who was recently appointed administratrix, brings action against her nieces, Lillian S. Hargear and Bessie L. Hargear, both prominent in society here, for an accounting of property which they hold as trustees, including \$50,000 in Virginia state bonds.

Trenton, N. J., Oct. 30.—Chancellor Magie has rendered a decision in one of the suits brought by Philip Kressel against the Distilling company of America. In the decision the chancellor grants a temporary injunction restraining August Belmont, John L. Cadwallader, T. Jefferson Coolidge, William F. Harrity and Alvin W. Kreeck, trustees, from voting \$54,000, 630 worth of stock of the company which they hold as trustees in pursuance of an agreement that was entered into June last.

WITH A CRASH

Passenger Train and Freight Train Meet Each Other.

St. Louis, Oct. 30.—One man was killed and six others injured, one perhaps fatally, in a collision on the Chicago and Alton, near Mitchell, Ill., Tuesday. The passengers received a shaking up but none was seriously hurt. George W. Carson, mail clerk, Bloomington, Ill., was killed. The injured are: Sidney L. Webster, passenger engineer; George Peritage, fireman; R. Durham, mail clerk, and J. W. Murphy, mail clerk, all of Bloomington, Ill.; William Stewart, mail clerk, Chicago; R. P. Hines, mail clerk, Normal, Ills.

The collision occurred between passenger train No. 8, known as the midnight special, bound from Chicago to St. Louis, and a freight train. Webster and his fireman jumped, as did also the engineer and fireman of the freight train.

The first car behind the engine of the passenger train was the mail car, in which several clerks were asleep. The engine of the freight crashed through the front of the mail car, telescoping it.

NEW YORK DISASTER.

First Reports in the Heat of Excitement Were Exaggerated.

New York Oct. 30.—Although a force of 300 men worked all night on the ruins of the property destroyed by the explosion in Tarrant & Co.'s drug house Monday and were relieved by more than 1,000 men at daylight, the search had not resulted in the discovery of any dead body up to noon, 24 hours after the explosion occurred. The list of missing numbers 38, but it is believed many of them will be found. Thomas F. Main, president of the Tarrant company said he felt sure that all of the employees with the possible exception of two had been saved. The loss by fire and explosion will be from \$1,500,000 to \$2,000,000.

Man Wanted Him.

Santiago De Cuba, Oct. 30.—Octavio Mena, formerly a clerk in the office of the captain of the port, was found guilty of the murder, about a month ago, of Colonel Payson of the Cuban army, whom he killed in a drunken row. The evidence showed that the homicide was entirely without provocation. He will probably be sentenced to imprisonment for 17 years and ordered to pay to the family of his victim the sum of \$2,000. While Mena was being taken from the jail to the court room a mob tried to lynch him.

American League.

Chicago, Oct. 30.—The American league will have no opposition in locating a baseball team in Philadelphia. This was made certain by a letter from Colonel Rogers of Philadelphia to President Johnson of the American league. In the letter Colonel Rogers said that he has always favored a second team in Philadelphia, and he believed that the administration of the American league team would tend to revive the interest in base ball.

Spain's Cabinet Mixes.

Madrid, Oct. 30.—The minister of finance, Senor Allen de Salazar, refuses to increase the naval budget and consequently Marquis Danelano hesitates to accept the marine portfolio. General Azcaraga, the premier, was in conference with the minister of finance and Marquis Danelano in the hope of arranging a compromise.

Second Degree Murder.

New York, Oct. 30.—Guilty of murder in the second degree was the verdict brought in by the jury before which Arthur Hards, the negro, has been on trial for killing Patrolman Robert J. Thorpe. It was Harris' unprovoked crime that incited the whole sale race riots on the West Side a couple of months ago.

Bryan Broke His Record by Making Thirty Speeches Monday—Roosevelt Was Roughly Received at Elmira—Campaign Events.

New York, Oct. 30.—After making 30 speeches and breaking his own record of 27 speeches in one day, Mr. Bryan remarked, "I am feeling tolerably well, thank you." Mr. Bryan had made a tour along the head waters of the Susquehanna river, and then back through the Catskills and down the Hudson on the west side of that river to Weehawken; thence across the river and across Manhattan Island and into Brooklyn. Mrs. Bryan accompanied her husband during the day and she received almost as much applause as he did when she appeared before the crowds assembled to hear him. The Democratic candidate was warmly received at all points.

Brooklyn's demonstration was the largest in the history of that borough. Music was furnished by 100 bands. It is estimated that over 100,000 people saw and heard the Democratic candidate speak. There were eight different parades in the borough and altogether 40,000 people were in line. Fireworks flamed from a dozen different stands and Greek fire was everywhere. Six speeches were made in Brooklyn, one in the suburbs and one at Hamilton Fish park, Manhattan, where over 100,000 people had assembled, mostly Hebrews. Mr. Bryan confined himself to trusts and imperialism.

Mr. Bryan began his last day of the New York tour at Addison. He made a five-minute speech from the rear platform of the Rambler a few minutes before 9 o'clock and notwithstanding a quite heavy rain was falling at the time, there was a big crowd present to greet him and to bid him God speed as he left for the west.

Mr. Bryan entered his coach at Jersey City just about midnight. His rest was not unbroken during the night. He had received a request before leaving New York to make a stop at Port Jarvis and consented to do so. When the train arrived, the town in the vicinity of the station seemed ablaze with roman candles, skyrockets and Greek fire. People were yelling and hooting like Indians and displaying banners and shouting "We won't go home until morning" and "We'll hold up the train till daylight."

Mr. Bryan dressed himself in a few minutes and going to the rear platform attempted to make a speech. The people, however, were so full of enthusiasm that it was difficult for him to find opportunity to proceed. In the crowd were many women and some of them held babies in their arms. Mr. Bryan's talk was broken by many cheers. He asked them to stand by their convictions and not to allow themselves to be swayed by either bribe or threat. Soon after daylight Mr. Bryan's train passed through Elmira, where Governor Roosevelt's train was tied up preparatory to beginning the day's work. Mr. Bryan was sound asleep at the time and there was no exchange of courtesies between the rival candidates. The rain which had been falling at Addison had diminished somewhat by the time Mr. Bryan's train reached Hornellsville, where he spoke about half an hour and had another large crowd, which was closely attentive. Mr. Bryan's next stop was made at Almond, and the next at Alfred, seat of Alfred college, where Senator Teller was educated.

Foraker in Michigan.

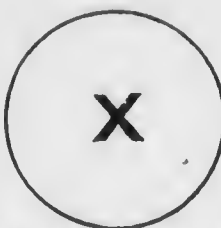

Grand Rapids, Oct. 30.—Senator Foraker of Ohio devoted his time here to a discussion of prosperity as an issue of the presidential campaign. His topic was furnished by the publication in a local Democratic paper of an article by George P. Hummer of Holland, Mich., claiming that there was no evidence of prosperity in the country until July, 1897, when the effects of a big wheat crop began to be felt. The senator's audience was larger than at any previous demonstration of his party here during the present campaign.

Lincoln, Neb., Oct. 30.—Under the auspices of the Hayward Republican club of the University of Nebraska, President Schurman of Cornell university, Ithaca, N. Y., addressed a crowd of 1,000 college students, professors and business men. His speech was devoted largely to the Philippine question and a defense of the administration from what he called the false doctrine of imperialism. He referred also to the prosperity of the country and to the subject of trusts.

DEMOCRATIC PARTY.
This is the way to vote the
Straight Democratic
Ticket.

The weather—
Showers to-day
and probably Thursday.

The former Democrats who now say they can't vote for Beckham are lined up with a party that in 1876 deliberately and with malice aforethought stole the Presidency of these United States. What nice company they have found!

The Republicans evidently realize that the Democrats have them beaten in the race for the Governorship, and now they are letting out a cry that the Democrats will steal the office. Mr. Yerkes, who has been in Washington City this week, told the newspapers that he is satisfied "both the State and National tickets would be counted out." Other Republicans are letting out the same yawp, and there is no doubt that there is "method in their madness;" that, realizing they are beaten for the Governorship, they are now planning to try to steal the electoral vote of Kentucky. That's the secret of the squeal they are now letting out.

WASHINGTON VAN HORN, of Chicago, a McKinley Presidential Elector for the Seventh Illinois district in 1896, has renounced the party in which he was active for thirty-five years, and come out squarely for the Democratic ticket. He is the founder of Ravenswood, Ill., and up to five years ago, when he retired, was one of the largest building contractors in Chicago. He maintains that the protective tariff system has enabled a few syndicates to get absolute control of all of the industrial enterprises of the country, and they are now dictating the policy of the Government for their own selfish motives. He says that imperialism is but a trust policy; that Bryan is immeasurably greater than McKinley, and that he has no debts to pay to syndicates and owes no duty except to the whole people, and it is for these and other reasons that he will cast his vote for the Democratic standard bearer.

SENATOR "BURCHARD" SCOTT'S BAD BREAK.

At the dinner given by Republicans in New York last Friday in honor of Roosevelt their nominee for Vice President, Senator N. B. Scott, who is one of the leaders in charge of the Republican National campaign in the East, made this statement:

"Right here I want to say I believe in trusts. They are a good thing. The Standard Oil Company put in its pipe lines to all the small towns where oil is produced, and if it was not for the Standard Oil Company this prosperity that we have wouldn't be here to-day."

Naturally there was consternation among the guests at this remarkable statement. Its significance and its effect upon the Republican party were instantly apparent.

Scott was as quick as anybody to understand the blunder he had made. He glanced around the room to see if any reporters were present. He saw J. H. Leveen, the representative of a local news bureau. Pointing his finger at him, the Senator said:

"If that newspaper man puts that down I will make trouble for him."

Leveen was soon the center of an animated group of men. Chairman Odell, of the New York Republican State Committee, and candidate for Governor, begged Leveen to suppress the news. The latter said he was there to get the news, and that he would have to send it to his office unless otherwise instructed by his superiors.

Leveen telephoned to his office and was promptly advised to give the news of the dinner without regard to anybody.

Then the big Republicans at the feast set to work to deny the story. This task was undertaken practically before the

diners had left the room in which the feast had opened.

A request was made to the Associated Press to suppress the story. This request was granted. The Republicans at first denied that Scott made such a statement, but they have ceased to do this.

The Standard Oil trust, which Scott praised, has already this year paid \$38,000,000 in dividends and another quarterly dividend of \$12,000,000 is expected before the year closes. Its capital is \$100,000,000, and on this its stockholders will pocket \$50,000,000 net profit this year,—an enormous tribute levied by this gigantic trust octopus on the people of the United States.

Ward's Minstrels To-night.
Have you heard Ward's minstrel band? It is a wonder. Talk about music—and all new, popular music, too. Guess he must have an up-to-date leader. Course he has. W. F. Mason, and you can hear his cornet above 'em all. At opera house to-night. Don't miss it. Briggs, the champion trick bicyclist of the world, is one of the features. Ward's minstrels is the only real twentieth century minstrel coming this season. Newton, the wonderful club manipulator, now with the troupe, has just returned from Paris, where he was a special feature at the Imperial Music Hall during the exposition. See him and the others. Tickets at Nelson's.

THE COAL TRUSTS.

They Are Exacting a Tribute of \$75,000 a Year From the People of This City and County.

No Relief Under Republican Rule From This Outrageous Extortion of the Combines.

SOME FACTS FOR THE VOTERS OF OLD MASON.

The people of Maysville and Mason County have for some time been paying and are now paying 11 and 12 cents a bushel for coal.

In former years it retailed in the Maysville market at 7, 8 and 9 cents, and at times, in the dull summer season, it has often sold as low as 6½ cents a bushel.

In these days of inventive genius and wonderful improvements in all kinds of machinery, it can be stated with absolute certainty that the cost of mining and marketing coal is much less than it was under the old methods; hence the price of coal ought to have been reduced instead of advanced. At least the price ought to have remained at the old rates. But little by little the price has been advanced until now, taking all things into consideration, the rates charged for coal are simply extortionate.

We wish to say right here that the local dealers are not to blame for this condition of affairs. They would just as soon handle coal at the old prices as at the present high rates.

For the secret of the phenomenal advance, therefore, you must go back to the local dealer. The grasping coal combines that have sprung into existence under the present Republican administration are the ones who are exacting this tribute from the people of the city and county. And who is at the head of the coal trust? Nobody but Mark Hanna, Chairman of the Republican National Campaign Committee, who brazenly tells the American people that "there are no trusts," but, "if there are, they are good things."

The Pittsburg Coal Company owns or controls practically the entire output of bituminous coal in that mining region. It was organized a year or two ago. Hanna's son is President of this company, and Hanna himself was and is one of the controlling spirits in the organization.

As soon as this trust was successfully organized to control the output at Pittsburg, other men, taking their cue from the Hanna concern, organized the Kanawha Valley mine owners into a trust known as The C. and O. Fuel Company, with which, by the way, the C. and O. Railroad Company was not connected. Before The C. and O. Fuel Company had operated many months suit was instituted in the U. S. Court at Cincinnati to have it declared a trust, and it was established by indisputable proof that this company had absolute control of the entire output of all the mines represented in the concern. The company not only limited the output but it fixed the price of every bushel, and had absolute control of the marketing of it. This company, after a long fight, was adjudged a trust by the court, and then its lawyers said it had been dissolved,—had vanished into thin air, so to speak. The Federal Judge had the right to inflict a fine of from \$500 to \$1,000 on every mine owner who had entered the combine yet to this day he has never taken any action against them, and there is no doubt that the same crowd are now operating a trust under another name.

Enough is known to show that these coal trusts have the people along the Ohio river absolutely and wholly in their grasp, and can

force them to pay just what price the coal barons may see fit to exact.

And now what is the amount of the tribute these coal barons are forcing the people of this city and county to pay them? A local dealer Monday estimated that 1,500,000 bushels of coal are sold annually in Maysville.

In addition to this, many citizens of the county obtain their supply of fuel at Springdale, Dover and Augusta, so that it is safe to say nearly 2,000,000 bushels of coal are consumed in the county annually. Placing it at that figure and the advance in the price by the trusts, an average of fully 4 cents a bushel, and we have \$80,000 A YEAR AS THE AMOUNT OF TRIBUTE THE COAL BARONS ARE EXACTING FROM THE PEOPLE OF MASON COUNTY. That means nearly one million dollars in the next ten years, if things are to continue as at present.

There is no just, no legal excuse or reason for this advance in the price of coal. It was simply brought about by a cool and deliberate scheme of the trusts to enrich themselves at the expense of the consumers. It is nothing less than downright and deliberate extortion. The people are in the grasp of the trusts. The consumer has to stand and deliver. There is no escape under the present Republican rule. The people cannot return to the old wood fire because the forests of Mason County are practically gone, and wood fires are a thing of the past.

This extortion by Hanna's trusts falls upon rich and poor alike, but falls heaviest upon the latter class. Winter is approaching and they find a bushel of coal costs them now nearly twice as much as they paid for it a few years ago,—before the trusts sprang into existence. And the end is not yet in sight, as a local dealer has informed the BULLETIN that he expects to see the price of fuel go to 15 cents a bushel before next spring.

Voters of Mason County, what are you going to do about it? If your Fiscal Court should meet and levy an additional tax of \$80,000 a year upon you, you would want to run the Justices out of the county. And yet the coal trusts are exacting nearly that much tribute from you a year, and without giving you anything in return. Are you going to vote to let them keep up this extortion? Are you going to vote for McKinley and Pugh and to give the Hanna gang of trust breeders and trust protectors four years more of their extortion? Or, are you going to vote for Bryan and Kehoe and to put an end to the trust robbery?

What say you, people of Mason County? Figure out what the trusts are extorting from you by the increased cost of coal, the increase in the price of sugar, the increased cost of your farm implements, your clothing, and then decide whether it is to your interest to vote for four more years of Hanna and McKinley.

What say you, voters of Maysville? Will you continue to quietly submit to this extortion, or will you vote to put an end to it?

It is a momentous question you have to decide next Tuesday. Think it over, and let your verdict be rendered against the trusts.

THE NEW....

"Erect Form" Corsets.

The Paris Exposition has done much toward effecting "Frenchy" changes in woman's dress this year. The corsets have felt it particularly and to-day we call attention to something new, something so chic you would easily believe it's direct from a swell Parisian shop. "Erect Form" Corsets made by the "P. N." people in three grades—\$1—\$1.25—\$1.50—built after the prevailing fashion with straight fronts and drop backs to give a fine, erect, military carriage. We would like to show you these Corsets and explain their merits.

THE "ULTRA" SHOE

Is the No Plus Ultra of Shoe building. It is the result of the combination of the highest skill and the finest materials. It is made perfect to the finish. Some Shoes start fairly well, like a speech, and end indifferently, like some speeches. But the "ULTRA" Shoe is watched in every process of its building by experts who act under the strictest orders to secure perfection to the finish. Not a few of the lasts and materials of the "ULTRA":

Royal Opera last, Heyl's Patent Calf.
Fifth Avenue last, military heel of chrome kid.
French Model last, Paris shape, of glazed kid.

There are many others. These will serve to show some of the right styles and leathers. We are exhibiting the finest lines of LADIES' CORRECT DRESS FOOTWEAR ever seen in Maysville. Then why go to foreign markets for your Shoes, pay more for them and not get as good as we offer you AT HOME?

ELECTION OFFICERS.

Important Changes In the Law That Should Be Noted.

Polls Open at 6 a. m. and Close at 4 p. m.
Ballots Must Be Preserved—Other Amendments.

Some important changes have been made in the election law, and are now in effect. All officers of election, as well as all voters, should post themselves thoroughly before next Tuesday.

It the first place the polls must be opened at 6 a. m. and kept open continuously until 4 p. m.

Next, in order to vote a straight ticket the voter must stamp inside the large circle found just below the party emblem. A X stamped inside the circle under the rooster will vote the straight Democratic ticket.

Challengers and inspectors must present a certificate of their appointment duly attested, and election officers who refuse to admit challengers and inspectors make themselves liable to a fine of from \$50 to \$500.

If the officers of election disagree as to the right of any one to vote, one of the Judges of election shall administer the written oath prescribed, and shall fill out with ink the blanks and require the person offering to vote to subscribe his name thereto, with pen and ink, and upon his failure or refusal to take said oath and to subscribe his name thereto, the person so offering to vote shall not be permitted to vote. If the person offering does take said oath and subscribe his name thereto and so counter affidavit is filed, he shall be permitted to vote, and one of the Judges shall certify the same, and the oath so subscribed and certified shall be returned to the County Clerk, with the poll books, who shall safely keep the same, and shall deliver the same to the foreman of the grand jury on the first day of the next term of the Circuit Court, and for his failure to do so he shall be fined not less than \$10 nor more than \$100. The grand jury shall investigate all such cases, and indict persons who illegally vote. The penalty for illegal voting is from two to ten years in the penitentiary.

The section in regard to the preservation of the ballots will be published in full to-morrow.
